

# 6 STEPS

## HP / Leasing: How to order in six easy steps

We make it easy for you to access the latest technology without the need for an outright purchase with high initial start-up costs.

### Step 01

#### Choose your purchase option

We offer both **Hire Purchase**, which lets you keep the machine at the end of the contract, or **Leasing** - the most cost-effective access option.

### Step 02

#### Choose your product

Select the product you require: We currently offer the following machines: LPA3, ICM 4.0, ICM 2.0 and the BS500 Bottle Sampler

### Step 03

#### Choose the timespan

Our product plans are available over one, two and three-year periods. Choose which suits your needs best.

### Step 04

#### Choose your service support plan

We offer 3 different plans - silver, gold and platinum. Each offers recalibration and analysis with replacement machines and enhanced benefits for premium packages

### Step 05

#### Call our Sales Team on 01451 822 522

We will guide you through the order process and credit applications and handle any questions about products, service plans and the payment scheme

### Step 06

#### No quibble 14-day guarantee

if you are not completely satisfied with the product or the service you can cancel at any time during the first 14 days, taking away the risk.
